New Synthetic Methods Inspired by Natural Product Synthesis

Teck Peng LOH

Division of Chemistry and Biological Chemistry, School of Physical and Mathematical Sciences, Nanyang Technological University, Singapore 637371, Singapore¹
Department of Chemistry, University of Science and Technology of China, Hefei, Anhui 230026, P.R. China²

teckpeng@ntu.edu.sg

One of the objectives in our group is to search for new synthetic methods and concepts through the total synthesis of natural products. In this presentation, I will go through some of the methodologies and concepts developed during the course of the total synthesis of some of the natural products.
